About William Osler Health System

William Osler Health System is a leading community teaching hospital system delivering world-class health care inspired by its people and communities to the 1.3 million people who live in the growing and diverse communities of Brampton, North Etobicoke, and surrounding areas. Accredited with Exemplary Standing, Accreditation Canada's highest rating for a Canadian hospital, Osler is one of Canada's largest community hospital systems known for its highly active Emergency Departments. Osler is designated as a Best Practice Spotlight Organization (BPSO) by the Registered Nurses'

Association of Ontario, is the first and only acute care health system in the world to receive The Butterfly Approach™ accreditation for dementia care and is a proud partner of the Princess Margaret Cancer Care Network. Building on a legacy of clinical excellence and innovation and home to the Osler Research Institute for Health Innovation, Osler is planning for the future with transformative developments, including the new Peel Memorial Hospital and as the primary clinical partner for Toronto Metropolitan University's new School of Medicine in Brampton.
